

Technical drawing of a concrete slab (lawa) with dimensions and material specifications. The drawing shows a cross-section of the slab, which is 21 units wide and 40 units high. The slab is composed of two parts: a lower part (labeled 'Beton C12/15') and an upper part (labeled 'obrzeże betonowe 6x20x100'). The lower part has a height of 25 units and a width of 10 units. The upper part has a height of 15 units and a width of 10 units. The total width of the slab is 21 units, and the total height is 40 units. The drawing also shows a 3-unit thick layer of concrete (labeled '3') on top of the slab. The material is specified as 'Beton C12/15'.

obrzeże betonowe 8x30x100  
 ława z betonu C12/15

Technical drawing of a concrete curb cross-section. The curb is 33 cm wide and 40 cm high. It has a base of 15 cm, a top width of 30 cm, and a vertical section of 22 cm. The top right corner is rounded with a 3 cm radius. The material is concrete C12/15, and it is laid on a 3 cm thick bedding of cement-sand. The drawing includes dimensions and a material label "Beton C12/15".

Technical drawing of a concrete curb (krawężnik betonowy) with dimensions:

- Top horizontal edge: 30
- Left vertical edge: 38
- Bottom horizontal edge: 33
- Right vertical edge segments: 12, 12, 3, 15
- Inner vertical edge: 30
- Gap between inner vertical edge and bottom horizontal edge: 3
- Material: Beton C12/15
